

# MINI 2 BEATBUDDY

Guide de  
démarrage rapide

Lisez d'abord ce guide

# Controlling the Beat

**Start:** Begin song by tapping the pedal. The song starts with an intro\* fill, just like a real drummer, and then goes to the verse, which loops as long as you'd like.

**Fills:** If you want a fill, just tap the pedal any time, and a fill will play, perfectly in time.

**Transition:** To transition to the chorus, hold the pedal down for as long as you'd like the transition beat to last.

**Chorus:** When you're ready to start the chorus, let go. The chorus beat loops as long as you like. Return to verse the same way you transitioned to chorus.

**End:** Whenever you want to end the song, double-tap the pedal to end with an outro fill.

**\*To enable/disable intros: Hold down right knob. Twist to "on" or "off". A dot is displayed by tempo when intros are off.**

**Start/Fill**  
Single tap

**Transition**  
Hold down

**Verse ↔ Chorus**  
Let go

**End**  
Double tap

**Tip:** Hold the transition beat to play a bridge.

for our song-matching tools.

# Additional Control!

With the Singular Sound Footswitch, select genres & songs, change tempo, add accent hits and drum breaks anytime — creating a powerful, realistic live effect, all totally hands-free.

**Accent hit** (e.g. a cymbal crash)

Accent hits vary by song and sometimes even by song part

**While song is playing:**  
Pause/Unpause

**While no song is playing:**  
Hold down to select Genre, Song or Tempo

Genre: Tap once to move to next genre  
Song: Tap once to move to next song  
Tempo: Tap tempo mode

**Only the Singular Sound Footswitch is compatible with the BeatBuddy Mini 2**

Sold separately at your favorite dealer and at [SingularSound.com/products](https://SingularSound.com/products)
